## May 2019 - GLOW YOUR SKIN

### 10% OFF PRP (PLATELET RICH PLASMA)

PRP uses your own blood. We prepare a product which enables us to collect and process your own natural tissue building elements. Your blood is drawn by Dr. Mohan or his staff, and then spun in order for your red blood cells to separate from your platelets, making (PRP – Platelet-Rich Plasma). PRP is then combined with an activator making (PRFM – Platelet-Rich Fibrin Matrix) and is then injected into the treatment area, just below the surface area of your skin. Activate cellular turnover and tissue regeneration, stimulate collagen production, smooth out lines and wrinkles and repair acne scars.

You can expect to see subtle yet consistent results after each treatment, without unwanted side effects such as bruising or excessive skin irritation after the Laser Genesis procedure. Laser Genesis Treatments can be performed in a relaxed, comfortable manner without the use of topical anesthetics or gel.

### Microdermabrasion – Buy 2 Get ONE FREE

Microdermabrasion can reduce the effects of aging on our skin. Diamondtome Microdermabrasion is a non-surgical, exfoliating treatment that improves wrinkles, skin color and texture by removing the topmost layer of skin leaving it more supple and vibrant. It stimulates the collagen tissue beneath the surface of the skin resulting in a healthier and firmer appearance.
