July, 2019

Laser Hair Removal - Buy 6 sessions get 2 free

If you're not happy with shaving, tweezing, or waxing to remove unwanted hair, laser hair removal may be an option worth considering. Laser hair removal is one of the most commonly done cosmetic procedures. It beams highly concentrated light into hair follicles. Pigment in the follicles absorb the light. That destroys the hair.

Belkyra - 20% OFF on ALL packages or single treatment

Belkyra™ is an innovative beauty breakthrough and first-in-class aesthetic treatment for both men and women who are bothered by fullness under the chin and wish to improve the appearance of their chin profile.

Product of the month: SkinCeuticals 20% OFF

To maintain and improve skin health, an effective skincare regimen must contain three fundamental elements: Prevention, Protection, and Correction. The SkinCeuticals product philosophy is built around these principles. Designed to prevent signs of future damage, protect healthy skin, and correct the appearance of previous damage, SkinCeuticals is committed to advanced skincare products that are backed by science.

August, 2019

Chemical Peel & Fire and Ice 20% OFF packages of 3

The INNOVATIVE FACIAL (Fire and Ice) combines a powerful, exfoliating peel and rich, luxurious facial treatment into a single service. Designed and developed to treat aging, acne and hyperpigmentation, this system effectively polishes and rejuvenates skin to a smooth, healthy glow.

(Minimum Purchase 100 Units)

Soft Lift Levels 1-3 Botox/Dysport & Filler Combination

Receive a FREE iS Clinical skincare with Soft Lift purchase

Product of the Month: Obagi 20% OFF

September, 2019

Dermamelan- 20% OFF Treatment and home care

The Dermamelan depigmentation program is intended to eliminate pigmented blemishes on the face. The mechanism of the action of the Dermamelan program is based on the inhibition of tyrosinase, a basic enzyme in the melanin formation process. Several of the substances present in the Dermamelan formulation act by blocking this enzyme, or even by inverting the metabolic process of the transformation chain.

Fraxel 1550/1927 or Dual - 20% OFF Package of 3 15% off package of 2 10% off single sessions

There is simply nothing else like it for improving the appearance of your skin and giving you a renewed sense of confidence. Until now, two varieties of laser treatment have been available for cosmetic enhancement-ablative and nonablative. Ablative, which literally means to vaporize at a very high temperature, is very effective at destroying unwanted tissue but has significant side-effects and requires a lengthy healing period. Non-ablative, on the other hand, has very few side-effects and requires almost no healing time, but involves numerous treatments over many months to achieve only modest results.

4 Syringes Juvederm for \$2200 with the DR (\$600 saving)

\$2000 with the nurse (\$800 saving)
